

# WHO WAS THAT LONE-TAR!

DISTRIBUTED BY:

## LONE-TAR™...THE ULTIMATE BACKUP SOFTWARE FOR UNIX™

- 1 - Guaranteed to at least **DOUBLE** the capacity of any backup device.
- 2 - Unattended Incremental Backups on one tape (that's right...1) in most instances... even with multiple large hard disks.
- 3 - 33% faster to verify & restore than any other utilities
- 4 - 100% tar compatability means you can **SALVAGE** data from a corrupted "tar" backup with **LONE-TAR™** error recovery.
- 5 - Ability to "**SALVAGE**" data from a hard disk going bad (bad sectors)
- 6 - Idiot proof Menus allow end users to select what files they want to backup... or restore.
- 7 - 100% compatible with **SCO™** device library (/ect/default/tar) on **ALL** systems
- 8 - User friendly Menu Interface with source code makes customization a snap
- 9 - Backup status reports make a systems administrators life a lot easier.
- 10 - "cron" backup results can be sent to a terminal, printer and "mail"
- 11 - You can "**REOPTIMIZE**" your hard disk in a very simple, easy & fast manner
- 12 - **Non-destructive** restore option prevents clobbering existing files
- 13 - **PASSWORD SECURITY** to modify source code files
- 14 - Maintains complete log files of all archives, restores, verifications, etc.
- 15 - Archives device files (/dev), empty directories, named pipes, etc.
- 16 - Optional "**CRASH RECOVERY SYSTEM**" allows you to restore from an **SCO™** system crash in minutes (...it works)
- 17 - Over-ride file locking capabilities (if desired) is fantastic if you want to backup while using your software
- 18 - Vol. # checking on restore prevents restoring out of sequence
- 19 - Will notify you if file changes size during backup
- 20 - Supports Inclusion & Exclusion file lists
- 21 - Master & Incremental Backup capability
- 22 - Hardware/Software system independent
- 23 - Large Blocking for increased speed
- 24 - True Data Verification mode
- 25 - Data compression mode

ATTENTION: MR. JEFF HYMAN

Dear Jeff:

I would like to take this opportunity to thank you for your great support over the past few weeks.

We have found your product to be "user friendly", and your demo disk has made your product very easy to sell. In essence, the Lone-Tar backup and "crash recovery system" has simplified our lives at Computer Options.

I am enclosing a copy of Computer Option's Newsletter we distributed to our customers introducing your product.

Again, thank you for your personalized phone support, and I will look forward to doing more business with you in the future.

Sincerely,

  
Dave Harrower
