

# Faster Than A Six-Armed Secretary.

**(And twice as pretty.)**

The **System-Z** does it all. Accounting, Secretarial, Personal. From the smallest to the largest job, the **System-Z** handles it quickly, efficiently and at an amazingly low cost.

The hardware features of our standard system are unmatched — Z-80 processor, S-100 bus, 32K RAM, full-sized floppy disk drive, video monitor, keyboard and CP/M operating system.

After you've bought your system most manufacturers leave you up a creek without a program. Not us. The **System-Z** runs a dozen languages, and our software library offers you over 500 application programs.

The **System-Z** is ideal for the serious computist, demanding businessman, or OEM designer. Check our features and see if you don't agree . . .

### CP/M (TM) MICROCOMPUTER CONTROL PROGRAM

From Digital Research, CP/M is a sophisticated interactive program development system. CP/M's basic facilities include dynamic file management, a fast assembler, a general-purpose text editor, and an advanced debugger. All Micro DaSys software is designed to run under the CP/M Disk Operating System for maximum flexibility and computing power.

In addition to CP/M with its powerful file handling capabilities, the SYSTEM-Z is furnished with BASIC-E, a powerful disk-based BASIC Compiler and Run-time package.

MicroDaSys is pleased to offer a wide variety of business applications programs including word processing, payroll, inventory, general ledger, accounts receivable and payable, mailing list and many others. The SYSTEM-Z can be programmed in BASIC, FORTRAN, PASCAL, APL, COBOL, PILOT, and ALGOL.

Our program library contains over 500 programs. We offer a variety of software packages to meet any need. Our programs are fully documented, modular in design and field tested. They are backed and supported by our software experts. New versions and updates are available to registered owners.
