Problem

Intermediate Term Stock Portfolio will not print future trend on printout.

Solution

The problem is corrected by following the steps listed below.

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC, CLOAD the Intermediate Term Stock Portfolio program.
3. Make the following addition:

ADD:

New Line: 326 IFA$=""THENIFABS(T9)=1THENA$="LEVEL"ELSEIFT9=2THENA$=
"UP"ELSEA$="DOWN"

4. Type CSAVE"S" to save the changes in the program.
