Description Accounts Payable  
Model Model I  
Stock No. 26-1554 Version 1.2  
Date June 13, 1980  
Page 1 of 1

### Problem

Some customers have had problems due to the fact that they have scrambled their index file. This change reconstructs the index.

### Solution

1. In BASIC load the APS program by typing LOAD"APS"
2. Type in:  
257 NA=1:GOTO620
3. Type RUN and press <ENTER>
4. Enter a new vendor and sort.

This reconstruction of the index will only work if the version is 1.2. If the index is zeroed out it will not work.
