Problem

"Illegal Access Attempt To Protected File" errors have been reported to occur
when SORTING.

Solution

The following patches should be applied to 3.Ø and 3.1 PROFILES if you have
the Model III computer:

1. At TRSDOS READY type the patches in with <ENTER> after each line.

```
PATCH SORT (ADD=7854,FIND=5816ØØØ6,CHG=B728Ø5AF)
PATCH SORT (ADD=7858,FIND=Ø5AFCB13,CHG=C6321ØFC)
PATCH SORT (ADD=785C,FIND=CB121ØF9,CHG=5F16ØØØØ)
```

*You will need to run the following program with a backup copy of PROFILES
3.Ø or program disk in drive 1 if you have the Model I computer.

1. Load BASIC and type in the following program:

```
2Ø F$="":OPEN"R",1,"SORT"
3Ø FIELD1,152AS D$,12 AS C$
4Ø GET 1,2
```
