Problem

With 56 or more accounts in the system and either a Trial Balance or an Account Listing printed, the computer prints the first page and fails to do a top-of-forms before printing the next heading and continuing with the next page.

Solution

The problem is corrected by following the steps listed below.

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing LOAD"Glmaint".
3. Add the following line:

ADDITION (Type the line followed by <ENTER>.)

```
6110 IFPG>0THENLPRINTFF$;
```

4. Type SAVE"Glmaint" to save the changes in the program.
5. At TRSDOS READY, make a backup copy of the corrected diskette.
