Problem

Rounding errors appear in the standard deviation output in the Chi Square Analysis program.

Solution

The problem is corrected by following the steps listed below.

1. LOAD the Chi Square Analysis Disk by typing LOAD"CHISQ/BAS".
2. Make the following corrections.

CHANGES (Retype the line or refer to the Edit section of the owners manual)

Old Line: 280 FORI=1TONR:FORJ=1TONC:CS=CS+(O(I,J)-E(I,J)-CC)^2/E(I,J)

New Line: 280 FORI=1TONR:FORJ=1TONC:CS=CS+(ABS(O(I,J)-E(I,J))-CC)^2/E(I,J)

4. Type SAVE"CHISQ/BAS" to save the changes in the program.
5. At TRSDOS READY, make a backup copy of the corrected diskette.
