Problem

RM Cobol does not have the capability to detect crashed indices. The following patches should be applied immediately so as to notify the user of a crashed index so that at this point he/she can go to a back-up and re-key in the data. Once these patches have been implemented an error code will occur upon loss of integrity of data (crashed index).

* * THESE PATCHES ARE REQUIRED! * *

Solution

At TRSDOS READY, apply the following patches to correct the above problem.

```
PATCH RUNCOBOL A=761D F=3014FD7071FD717021 C=D021250019EB3E2CCF
PATCH RUNCOBOL A=7626 F=250019EB3E2CCF2804 C=2007FD7071FD7170C9
PATCH RUNCOBOL A=6E90 F=98 C=34
```
