

Papers by Bell Laboratories Authors

PHYSICAL SCIENCES

Acceptor Site in Metal Halide Intercalated Graphite. G. K. Wertheim, P. M. Th. M. van Attekum, H. J. Guggenheim, and K. E. Clements, *Solid State Commun*, 33 (1980), pp 809-11.

Chemical Conversion of C_2F_6 and Uniformity of Etching in a Radial Flow Plasma Reactor. T. M. Mayer, *J Electron Mater*, 9 (May 1980), pp 513-23.

Dark Current & Breakdown Characteristics of Dislocation Free InP Photo-diodes. T. P. Lee and C. A. Burrus, *Appl Phys Lett*, 36 (Apr 1980), pp 587-9.

The Effects of Phosphorus Diffusion Cooling Rate on I^2L Gain. B. L. Morris, *Solid State Electron*, 23 (May 1980), pp 457-65.

Electronic Structure of Lithium Graphite. G. K. Wertheim, P. M. Th. M. van Attekum, and S. Basu, *Solid State Commun*, 33 (1980), pp 1127-30.

Enhancement of Superconductivity Through Lattice Softening. B. T. Matthias, G. R. Stewart, A. L. Giorgi, J. L. Smith, Z. Fish, and H. Barz, *Science*, 208 (Apr 1980), pp 401-2.

Glassy Metals. H. S. Chen, *Rep Prog Phys*, 43 (1980), pp 353-432.

The Influence of Structure on Electrical Resistivities of Pd-Au-Si and Au-Ge-Si Glass Forming Alloys. H. S. Chen, *Solid State Commun*, 33 (1980), pp 915-9.

Low Temperature ac Conductivity of Chalcogenide Glasses. J. J. Hauser, *Phys Rev Lett*, 44 (June 1980), pp 1534-7.

Magnetization of Amorphous Alloys—Deviations from Spin Wave Theory at Low Temperatures. S. M. Bhagat, M. L. Spane, H. S. Chen, and K. V. Rao, *Solid State Commun*, 33 (1980), pp 303-7.

Particle Diffusion in the Geomagnetosphere: Comparison of Magnetic & Electric Field Fluctuations. L. J. Lanzerotti and A. Wolfe, *J Geophys Res*, 85 (1980), pp 2346-8.

Photoelectron Diffraction Effects in Core Level Photoemission from Na and Te Atoms Adsorbed on Ni(001). N. V. Smith, H. H. Farrell, M. M. Tatum, D. P. Woodruff, D. Norman, B. W. Holland, and M. S. Woolfson, *Phys Rev B*, 21 (Apr 1980), pp 3119-30.

Properties of Fe-50% Ni Alloys Prepared by Direct Hydrogen Reduction of Mixed Oxide Preforms. M. L. Green, H. Herring, R. C. Sherwood, M. Robbins, and V. G. Lambrecht, Jr., *Intl J Powder Metallurgy and Powder Tech*, 16, No. 2 (Apr 1980), pp 131-47.

Relations Between Melting Point, Glass Transition Temperature and Thermal Expansion for Inorganic Crystals and Glasses. L. G. Van Uitert, *J Appl Phys*, 50 (Dec 1979), pp 8052-61.

Specific Contact Resistance for Alloyed Au-Zn Contacts on p-Type $Ga_xIn_{1-x}P_yAs_{1-y}$. H. C. Casey, Jr., R. A. Logan, P. W. Foy, W. M. Augustyniak, and J. M. Vandenberg, *J Appl Phys*, 51 (May 1980), pp 2933-4.

Spin-Glass-Ferromagnetic Multicritical Point in Amorphous Fe-Mr Alloys. M. B. Salamon, K. V. Rao, and H. S. Chen, *Phys Rev Lett* 44 (1980), pp 596-9.

On the Structure of Metallic Glasses of Transition Metal-Metalloid System. Y. Waseda and H. S. Chen, *Sci Rep*, 28 (1980), pp 143-55.

A Study of the Crystallization Kinetics of Roller Quenched $LiNbO_3$ Glass Using Trivalent Chromium Ion Luminescence as a Probe. T. J. Negran, *Phys Chem Glass*, 20 (Dec 1979), pp 140-1.

Valence Transition at the Surface of Sm in Metal and of Yb in $YbAu_2$. G. K. Wertheim and G. Crecelius, *J Magn & Magn Mater*, 15 (1980), pp 1074-6.

A View of Big Science. A. Hasegawa, *Yomiuri Newspaper* (June 1980).

COMPUTING

An Over-The-Cell Router. D. N. Deutsch and P. Glick, *17th Design Auto Conf Proc* (June 1980), pp 32-9.

Speech Encoding by a Stack Algorithm. S. Mohan and J. B. Anderson, *IEEE Trans Commun*, 28 (June 1980), pp 825-30.

ENGINEERING

Analysis and Prediction of Cross Polarization on Earth-Space Links. T. S. Chu, *USRI Symp* (May 1980), pp 6.8.1-7.

Anisotropic Plasma Etching of Polysilicon. C. J. Mogab and H. J. Levinstein, *J Vacuum Sci Technol*, 17 (June 1980), pp 721-31.

Attenuation, Depolarization and Dispersion by Atmospheric Hydrometeors Along a 19 and 28 GHz Earth-Space Radio Path. D. C. Cox, H. W. Arnold, H. H. Hoffman, and R. P. Leck, *AGARD Conf*, Preprint No. 284 of the NATO/AGARD Conf on Propagation Effects in Space/Earth Paths (May 1980), p 12-1-11.

Differential Group Delay Measurement Using Single Mode Fiber Selective Excitation. M. J. Buckler, *1980 Conf Proc Precision Electromagnetic Measurements* (June 1980), pp 224-7.

Digital Test Generation and Design for Testability. J. Grason and E. W. Nagle, *17th Design Auto Conf Proc* (June 1980), pp 175-89.

Evolutionary Development of No 2/2B ESS. W. R. Nehrlich and P. D. Mandigo, *ICC 80 Conf Record*, 3 (June 1980), pp 45.5.1-7.

LT-1B Facility Connector. R. E. Heil and W. J. Mitchell, *ICC 80 Conf Record*, 3 (May 1980), pp 47.1.1-5.

An Interframe Coding Technique for Broadcast Television. J. O. Limb and E. G. Bowen, *SMPTE J*, 89 (June 1980), pp 451-7.

The Lubrication of Gold Surfaces by Plasma-Deposited Thin Films of Fluorocarbon Polymer. K. R. Walton, *IEEE Trans Components, Hybrid, & Manufact Tech*, 3 (June 1980), pp 297-304.

Microprocessor Peripherals in Electronic Switching Systems. S. M. Neville, *Intelcom 80* (May 1980), pp 65-8.

Modeling of Two-Dimensional Spiral Inducers. R. Rodriguez, J. M. Dishman, F. T. Dickens, and E. W. Whelan, *Proc 1980 30 Electro Compon Conf* (Apr 1980), pp 80-6.

Multiple User Variable Rate Coding for TASI and Packet Transmission Systems. R. V. Cox and R. E. Crochiere, *IEEE Trans Commun*, 28 (Mar 1980), pp 334-44.

A New Multifunctional Mass Termination Connector. A. W. Carlisle and D. R. Frey, *Proc 1980 30 Electro Compon Conf* (Apr 1980), pp 341-8.

Optical Bistability: An Undergraduate Experiment. W. P. Greene, H. M. Gibbs, A. Passner, S. L. McCall, and T. N. C. Venkatesan, *Opt News*, 6 (1980), pp 16-9.

An Optical Sub-Picosecond Gate. E. A. J. Marcatili, *Appl Opt*, 19 (May 1980), pp 1468-76.

Rain Attenuation at 10-30 GHz Along Earth-Space Paths: Elevation Angle, Frequency, Seasonal and Diurnal Variations. H. W. Arnold, D. C. Cox, and A. J. Rustako, Jr., *ICC 80 Conf Record*, 3 (June 1980), pp 40.3.1-7.

Sensor for the Measurement of the Level and Volume of Conductive Liquids. K. R. Walton, *Rev Sci Instrum*, 5 (Apr 1980), pp 504-8.

Solid-State Microwave Amplifiers Used in the Bell System. J. W. Gewartowski, *ICC 80 Conf Record*, 1 (June 1980), pp 17.2.1.

The Surface Photovoltage of Squary Gum Dye Films. M. E. Musser and S. C. Dahlberg, *Appl Surf Sci*, 5 (1980), pp 28-36.

EBES—Tests and Measurements. J. G. Skinner and D. S. Alles, *Kodak Microelectro Emi Proc—Interface 79*, 102 (1980), pp 10-17.

SOCIAL AND LIFE SCIENCES

Normal Listeners in Typical Rooms: Reverberation Perception, Simulation and Reduction. D. A. Berkley, in *Acoustical Factors Afflicting Hearing Aid Performance*, Baltimore: University Park Press, 1980, pp 3-24.

MANAGEMENT AND ECONOMICS

Data Administration Methods for Rural ESS. J. E. Yates and G. P. Zahorodny, *ICC 80 Conf Record* (June 1980), pp 1.5.1-6.

New Techniques in the Planning of International Facilities and Networks. D. M. Garvey and R. S. Libenschek, *Proc of Conf on Study Day on New Devel in Telecommun* (1980), pp 177-97.
