Jun 75 COMSEC Familiarization: Do You Need It?
Jun 75 Golden Oldie: SIMP Tables
Jun 75 The Navajo Code Talkers
Jul 75 Learned Organizations--CLA News; CMI News
Aug 75 Computer Network Resources In C5
Aug 75 Language in the News

The following cumulative index of CRYPTOLOG (Vols. I through IX, 1974-1982) was produced using UNIX/PINSETTER tools on MYCROFT and BARDOLPH1. The index is in three parts, and is being published in three successive issues. Part one is an index by author; part two is an index by keyword; and part three is an index by title. Items in multiple issues (February-March 1975, for example) are indicated by the first month (i.e., by Feb 75).

Aug 75 Puzzle: CRY-PTO-LOGrolling
Oct 75 Letter: Typewriter Keyboard
Nov 75 NCS Offers Course-Equivalency Tests
Dec 75 Cryptolog Index for 1974-1975
Dec 75 Establishment of CSI Newsletter
Dec 75 Learned Organizations--CLA Essay Contest; CAA News
Mar 76 1976 Language Meetings and Conferences
Apr 76 Language in the News: Language Rule
Apr 76 NCS Offers Course-Equivalency Tests, Clarification
Aug 76 Language in the News
Aug 76 NSA Cryptologic Collection
Aug 76 Note on FRANCOPHONEGLOS
Sep 76 Language in the News
Sep 76 Learned Organizations--1976 CLA Essay Contest; 1976 CMI Essay Contest
Oct 76 The Winnah: Kid Apostrophe!
Jan 77 Golden Oldie: A Medal for Horatius...
Aug 77 DIALOG Available at NSA
Aug 77 Want to Play with a Pickfair Square?
Oct 77 The Perils of Being a State Department Interpreter
Dec 77 Cryptolog Index for 1977
Feb 78 Puzzle: Three Holes

(U) PAC-II is a project planning and control system developed by International Systems, Inc. PAC-II was designated the Agency standard automated project management system by memorandum DDPR/006/81 and is intended to help Agency project leaders with planning, scheduling, resource allocation, budget tracking, task assignment, over/under projections, etc. PAC-II allows inter-task dependencies and includes extensive facilities for playing "What if?" The system includes a 5-year scheduling capability and provides for tailoring the defaults to specific work schedules, holiday patterns, skill mixes, etc. More than 40 standard reports (Gantt charts, budget summaries, projected completions, etc.) are available. There is no Agency software development involved in PAC-II.

[redacted]

STUDENTS!

(U)

(U) On 29 November 1982 NCEUR announced its Independent Study Program as a way to facilitate the enrollment in and completion of National Cryptologic School (NCS) independent courses for cryptologic personnel in Germany. This is to cut the lag in mailing time between the NCS and sites in Germany. The NCEUR Training Office will also issue NCS Course Completion Certificates to individuals who satisfactorily complete an Independent study course obtained from NCEUR.

(U) Also available from NCEUR will be Russian and Czech videotapes to support language refresher and development training as well as videotapes on equipment maintenance, operations, collecions, management, security, etc.
