GENERAL NEWS:

February 8, 1983

The memory board loading party scheduled for 2/10/83 has been cancelled. No new time has been set. The reason for the cancellation is a 2 month delay on 6116 RAM parts from Hitachi. All other memory parts are here, and assembly should be pretty quick as soon as the RAM arrives. The memory board committee will be taking advantage of the extra time to test some modifications which will enable solid 6MHz operation. We should have a report on the test results by the next newsletter. If you have any questions, comments, or offers of help, contact Doug Pocius at 1-857-6609.

I/O boards are done...if you don't have yours... call Will Beckett at 1-857-6261.

Front dress panels are in the silkscreen shop. They should be done fairly soon. Included with the dress panels will be a collection of bezels, filters, and other goodies.

The CCS disk controller board has been purchased and about 75% of the parts have arrived so far. Phil Gray is planning a loading party in 2-3 weeks. If you would like to be notified of the date then get in touch with Phil at 1-857-3086.

The club has decided on the CAT-100 video board for the main group purchase. The CAT will provide both alphanumeric and bit mapped graphics. Since there may be some people who would desire a simpler board, Dave Vanderwater is surveying the market for good, non-graphics, video boards. Dave would appreciate input from people who have had any experience with particular boards. The board that is currently being evaluated is an intellegent, I/O mapped, 24x80 system by WAMECO.

The 8th West Coast Computer Faire <sic> is coming! It will be held from March 18-20, 1983 at the San Francisco Civic Center. The admission price is \$15. However, if we purchase at least ten tickets by March 1, then the cost will be \$11. It should be a big show, (about 370 exhibitors) with a lot of interesting new product introductions. If you are interested in attending, send your check for \$11 to Doug Pung, Building 90 by March 1.

FOR SALE OR TRADE:

The newsletter will be carrying notices in this space for any items that club members would like to buy, sell or barter. To place an ad, send a note to to Rick Walker, building 3U-32.

HP MICROCOMPUTER INTEREST GROUP OFFICERS:

Moderator	Rick Pinger	30	969-0880
Treasurer	Doug Pung	90	1-263-2655
Hardware Committee Chairman	Steve Hessel	3U	x5514
Software Committee Chairman	Bob Wells	(408)	255-5027
